www.linkedin.com/in/alberto-cebreros-1b9017293/ 

Programmer with experience in web development, specialized in both frontend and backend with MERN. Throughout my career, I have worked on projects that combine creativity with advanced technical skills. I stand out for my ability to solve problems efficiently, collaborate with multidisciplinary teams, and quickly adapt to new technologies and work environments.

---

## Work experience

JUNE 2024 – MARCH 2025

[Full Stack Developer](#)/Crack In, México City, México

Leader of the company's web project development using the MERN stack. Collaboration with multidisciplinary teams, integrating features such as user management, online payments, and responsive design to improve the customer experience.

NOVEMBER 2023 – MARCH 2024

[Intern in Automation and Web Development](#) /Levely, Ciudad de México, México

Created ideas to implement new segments on a website through both backend and frontend. Designed logos and visual content for the website using Adobe Illustrator.

---

## Education

SEPTEMBER 2024

[Computer Science Engineering](#)/Tecnológico de Monterrey/Campus Estado de México

---

## Additional experiences

[HackMX \(MIT LIFT Lab Challenge\)](#)/Developed an AI solution to streamline inventory and sales management for nano stores, empowering small business owners. Collaborated with a multidisciplinary team to tackle real-world retail challenges.

[Banorte Hackathon 2024](#)/Built an AI-powered app focused on enhancing financial well-being. The project aimed to leverage technology to positively impact personal finance management. Sponsored by Banorte and Google.

[Meta x Centro Hackathon \(HackMX\)](#)/Designed an AI-driven tool in Canva with Llama 3.2 to generate creative ideas, promoting innovative thinking and project development. Focused on leveraging AI to enhance brainstorming and content creation processes.
